MTC SG Rondo RF System

The MTC Rondo (mono/dual) 8.2 Mhz antenna system is the best entry model system available on the market today. The Rondo models are of simple design but maxium effectiveness and are ideal for all possible retail solutions like Supermarkets, DIY stores, drugstores, garmentshops and shoppingmalls. The totally new design of aluminium profiles fits perfectly into any modern retail environment.

Features:

• Simple in design, maximun detection
• Visual and audible alarm
• Robust aluminum profiles
• Superieur electronics

Trolley bumper

MTC provides various accessories for security products. One of them is the trolley bumper. Trolley bumpers give extra protection to the system itself.

Additional trolley bumpers are particularly suitable for super markets and larger retail environments.
